

## Child and Adult Care Food Program (CACFP)

CACFP provides aid to child and adult care institutions and family or group day care homes for the provision of nutritious foods that contribute to the wellness, healthy growth, and development of young children, and the health and wellness of older adults and chronically impaired disabled persons.

Through CACFP, more than 4.2 million children and 130,000 adults receive nutritious meals and snacks each day as part of the day care they receive.

See how CACFP can make a difference in the quality of your program! Whether you are a provider in your home, at a day care center, in an afterschool care program, or in an emergency shelter, you will find many useful resources for serving nutritious meals and snacks.

- [Tell me about CACFP](#)

Here's an overview of how CACFP fits into the FNS safety net to improve access to food and a healthful diet.
